Career Objective

Excited, equipped, and ready to contribute - from building AI-powered crop health systems to deploying multi-agent content pipelines on cloud, I've gone beyond coursework to ship real solutions, and I'm eager to bring that builder's mindset to the right team.

Education

- **VNR Vignana Jyothi Institute of Engineering & Technology** Hyderabad, India
Bachelor of Technology - Information Technology, JNTUH; CGPA: 9.50/10 2023 - 2027
- **SR Junior College** Warangal, India
Class 12th (Telangana State Board); Percentage: 99% June 2023

Skills

- **Languages:** Python, C/C++, Java, JavaScript, R
- **Development:** HTML, CSS, Bootstrap, Express.js, Node.js, React, REST API Integration, DSA, OOPs, Postman, Git
- **Databases:** MongoDB, MySQL
- **Soft Skills:** Analytical Thinking, Critical Thinking & Problem-Solving, Collaborative Teamwork, Time Management
- **AI & ML Skills:** Machine Learning Fundamentals, Prompt Engineering, TensorFlow.js, Data Analysis, Model Integration, Data Handling

Projects

- **Blog App**
Developed a full-stack blog platform with user authentication and content management features, gaining hands-on experience in front-end and backend integration.
– **Tech Stack:** HTML, CSS, Bootstrap, Node.js, Express.js, MongoDB. April 2024
- **Smart Crop Care**
AI-powered crop health monitoring platform with image-based disease detection, real-time weather integration, crop recommendations, and yield prediction, built to support data-driven agricultural decisions.
– **Tech Stack:** React.js, TensorFlow.js, Flask, Google Cloud API, Image analysis. Feb 2025
- **Multi-Agent Social Media Content Generator**
Built and deployed a full-stack AI-powered Social Media Content Generator using React.js, Flask, and Gemini API to generate platform-specific content for Instagram, LinkedIn, Articles, and Twitter/X. Implemented API integration, PDF export, cloud deployment using Railway and Vercel, and production-level debugging with secure environment variable management.
– **Tech Stack:** React.js, JavaScript, Flask, Python, Gemini API, REST API, Railway, Vercel, HTML, CSS, Git, GitHub. Apr 2025

Certification

- **CISCO Python Essentials** 06 May, 2024
Completed an intensive course on Python fundamentals via Cisco Networking Academy. [Certificate](#)
- **JavaScript Essentials - Cisco** 20 Mar, 2025
Mastered modern JavaScript concepts including ES6+ features, asynchronous programming, and DOM manipulation. [Certificate](#)
- **Supervised Machine Learning: Regression and Classification** October 13, 2025
Built and trained supervised machine learning models for prediction and binary classification using Python, NumPy, and scikit-learn, including linear and logistic regression. [Certificate](#)

Achievements

- **Project Contest (Convergence 2k25)** - Successfully showcased AI-Powered Travel Planner. 21st Feb, 2025.
- **Google Solution Challenge Hackathon** - Finalist in the prestigious competition hosted by GDGC. 8-9th Feb, 2025
[Certificate](#)
- **Completed DSA Training - Smart Interviews (2025)** - Acquired strong analytical and problem-solving skills through Data Structures and Algorithms training through structured coding interview preparation. [Certificate](#)
- **Webathon 3.0 Finalist** - Achieved Finalist position for developing an innovative web-based solution, developed a digital platform to streamline blood donation and request processes under time-bound competition. 5-6th April, 2025
[Certificate](#)

Extracurricular Activities

- **Attended different workshops:** Agentic AI workshop, a 2-day hands-on workshop on Agentic AI organized by ACM VN-RVJIET. [Certificate](#), Langvision Workshop - Gained hands-on experience in Generative AI and Large Language Models. [Certificate](#), AndroidX Workshop - Acquired practical knowledge of Flutter development. [Certificate](#)

Position of Responsibility

- **ACM Student Chapter - Membership Chair:** Promoted to Membership Chair after contributing for one year in the Events & PR team. Organized workshops, hackathons, and technical events with 200+ participants, while strengthening engagement within the ACM community. Managed membership initiatives, coordinated with teams for event planning and promotions, and built strong connections with students, speakers, and organizers to ensure smooth execution of activities.
